

MYGOOD TRADER – RISK DISCLOSURE STATEMENT

Before entering into a business relationship and applying for a trading account with MyGood Trader (the “Company”), clients and/or prospective clients are strongly advised to carefully review this Risk Disclosure Statement in conjunction with the Company’s Terms & Conditions.

GENERAL RISK NOTICE

All trading involves risk. Different trading strategies carry varying levels of risk depending on the underlying financial instruments. While some strategies may offer higher potential returns, they also involve higher levels of risk.

Your risk tolerance depends on your personal circumstances, including but not limited to age, financial situation, trading objectives, trading timeframe, level of experience, and comfort with risk. You should carefully consider whether trading is appropriate for you.

CFD / OPTIONS RISK

CFDs and options are complex financial instruments and involve a high risk of losing money rapidly due to leverage. Leverage may work both to your advantage and disadvantage. As a result, you may lose all or more than your initial investment.

You should not risk capital that you cannot afford to lose. Before deciding to trade, you should ensure that you fully understand the risks involved and consider seeking independent professional advice.

Trading in the financial instruments offered by MyGood Trader is highly speculative and carries a significant risk of loss of all deposited funds. These products are considered high-risk and may not be suitable for all investors. They are intended only for individuals who:

- Fully understand and accept the economic, legal, and financial risks involved
- Possess sufficient knowledge and experience in the relevant financial instruments

NO INVESTMENT ADVICE

MyGood Trader does not provide investment advice, trading recommendations, or personalized guidance. Any information, tools, market commentary, or educational material provided—whether created by the Company or by third parties—is for informational purposes only and should not be considered investment advice.

Any trading decisions you make are solely your responsibility. The Company does not accept liability for losses resulting from decisions made based on information or tools provided through the platform or by third parties.

SPECIFIC RISKS

Concentration Risk

Holding a large number of positions or exposure to a single asset may increase volatility. Diversification may help mitigate this risk but does not eliminate it.

Market and Currency Risk

Market movements, exchange rate fluctuations, or changes in underlying asset values may adversely affect open positions and account equity.

Derivative Risk

CFDs and options derive their value from underlying assets and may experience high volatility, magnifying both profits and losses.

Execution Risk

Order execution may be affected by market conditions or technical issues, including:

- Slippage between expected and executed prices
- Delays due to system or network issues
- Order rejection or re-quotes due to liquidity conditions
- Temporary unavailability of pricing or trading instruments

Interest Rate Risk

Changes in interest rates may affect asset prices, foreign exchange rates, and rollover charges.

Regulatory Risk

Changes in laws, regulations, or government policies may affect trading conditions, account balances, or access to services.

LEVERAGE RISK

Trading with leverage significantly increases risk. While leverage can amplify gains, it can equally magnify losses, potentially exceeding your initial deposit.

OPERATIONAL RISK

Operational failures, system disruptions, technical malfunctions, cyberattacks, or third-party service interruptions may occur. The Company is not liable for losses arising

from events beyond its reasonable control, except in cases of gross negligence or willful misconduct.

LEGAL AND TAX CONSIDERATIONS

Laws and regulations, including tax laws, may change and affect your trading activities. You are solely responsible for ensuring compliance with applicable laws in your jurisdiction. MyGood Trader does not provide legal or tax advice.

NO GUARANTEE OF PROFIT

The Company does not guarantee:

- Profitability or avoidance of losses
- Future performance of any trading account
- Any specific level of return or trading success

ACKNOWLEDGMENT

By opening an account and trading with MyGood Trader, you confirm that you have read, understood, and accepted all the risks described in this Risk Disclosure Statement.
